

Bellucci Caffè Bar Technical Specifications

The Bellucci Caffè Bar is a high-capacity, professional automatic coffee machine designed for commercial environments such as offices, cafes, and restaurants. It combines advanced technology with a user-friendly interface to deliver consistent, high-quality beverages.

Key Features

- **Touchscreen Interface:** 10.1-inch color touch screen for intuitive operation and beverage selection.
- **Beverage Variety:** Offers 24 different beverage selections, including espresso, americano, and hot water.
- **High Capacity:** Designed for high-demand environments with a daily capacity of 150 to 200 cups.
- **Dual Boilers:** Equipped with two stainless steel boilers for simultaneous coffee brewing and hot water/steam production.
- **Professional Grinder:** Features a 54mm ceramic burr grinder with programmable doses (8g to 21g).
- **Water Supply:** Supports direct water connection or an optional 18-liter bottled water supply.
- **Brewing Unit:** Removable metal brewing unit for easy cleaning and maintenance, capable of handling up to 21g of coffee.
